3D Systems Announces Settlement with Regent Pacific Management Corporation
3D Systems Announces More Litigation Settlements

VALENCIA, Calif., March 3, 2004 - 3D Systems Corporation (Nasdaq: TDSC) announced today that it has settled its litigation with Regent Pacific Management Corporation, which had provided management services to the Company from 1999 to 2002.

The Company also announced that it has settled litigation brought by E. James Selzer, the Company's former chief financial officer, on terms that were not material to the Company.

The Company previously announced its February 4, 2004 agreement with EOS GmbH that settled all worldwide disputes and litigation between 3D Systems and EOS. Under the terms of that settlement agreement, 3D Systems and EOS waived all claims for damages with respect to their disputes and litigation and licensed various patents to each other.

"We are very pleased we have been able to conclude these cases on terms attractive to the Company," said Abe N. Reichental, 3D Systems' Chief Executive Officer. "This is yet another positive step in our overall efforts to refocus our business on improving our customers' bottom line. Settling these litigations is in the best interests of our customers and our company and eliminates a great deal of disruption and expense."
