## 3D Systems Cases for iPhone 5 Available Today

- Available Immediately Via [Freshfiber.com](http://Freshfiber.com) and [Cubify.com](http://Cubify.com)
- Authorized 3D Systems Distributors and Retailers Worldwide

**ROCK HILL, South Carolina –September 12, 2012 – [3D Systems Corporation](http://3dsystems.com)**

(NYSE:DDD) announced today the immediate availability of FreshFiber™ [3D printed cases for Apple's iPhone® 5](#) exclusively on [Freshfiber.com](http://Freshfiber.com) and [Cubify.com](http://Cubify.com), the destinations for all things 3D. Customized to protect and celebrate the iPhone® 5, 3D Systems' latest design- to-print capabilities deliver sophisticated designs boasting double layer cases for extra cushion and shock absorption with artistic self expression.

FreshFiber accessories are known for their beautiful and innovative designs that protect with art. Cases range from shake and move chainmail designs to bird bone inspired structures and multi-use phone case and credit card holders. FreshFiber offers a case for everyone's mood and style. The full FreshFiber catalog of cases for iPhone 5 is available [here](#). "Using our latest 3D printing production technology, we can offer to our customers the latest collection of accessories, just in time for the newest iPhone launch," said Jurjen Rolf, Development Director for 3D Systems FreshFiber products.

FreshFiber cases for iPhone 5 can be personalized by anyone using FreshFiber's [NameMelt App](#) that allows users to add their name or custom text to the side of each case, making it a truly personal accessory.

Be the first to get your 3D printed case for iPhone on [Freshfiber](http://Freshfiber.com) or [Cubify®](http://Cubify.com) today.

### **About 3D Systems Corporation**

3D Systems is a leading provider of 3D content-to-print solutions including 3D printers, print materials and on-demand custom parts services for professionals and consumers alike. The company also provides CAD software and plugins, and affordable consumer create-and-make printers, apps and services. Its expertly integrated solutions replace and complement traditional methods and reduce the time and cost of designing new products by printing real parts directly from digital input. These solutions are used to rapidly design, create, communicate, prototype or produce real parts, empowering customers to create and make with confidence.

More information on the company is available at [www.3DSystems.com](http://www.3DSystems.com).
