3D Systems Participates In SOUTH-TEC Emerging Technology Showcase

- 3D Content-To-Print Solutions For Additive Manufacturing -

ROCK HILL, South Carolina, October 10, 2011 – 3D Systems Corporation (NYSE: DDD) today announced plans to demonstrate its 3D content-to-print solutions in the Emerging Technology Showcase at SOUTH-TEC, October 11th -13th, 2011 at the Charlotte Convention Center in Charlotte, North Carolina.

[3D Systems](#) plans to feature its [ProJet™ HD 3000plus](#), with examples of its print precision, showcasing durable, plastic parts that are ideal for functional testing, design communication, rapid manufacturing and rapid tooling. The company will also showcase its on-demand [custom parts services](#), providing global customers with traditional and additive design to manufacturing services.

“We are pleased to support the Society of Manufacturing Engineers (SME), and exhibit our 3D content-to-print solutions and services in the Emerging Technology Showcase,” said Cathy Lewis, Vice President Global Marketing, 3D Systems.

About 3D Systems Corporation

3D Systems is a leading provider of 3D content-to-print solutions including 3D printers, print materials and on-demand custom parts services for professionals and consumers alike. The company also provides creative content development, design productivity tools and curation services and downloads. Its expertly integrated solutions replace, displace and complement traditional methods and reduce the time and cost of designing new products by printing real parts directly from digital input. These

solutions are used to rapidly design, communicate, prototype and produce functional parts, empowering its customers to create with confidence.
