Step up to the gold standard in 3D printing with genuine SLA®

Take advantage of the unrivaled precision, surface quality, range of materials, reliability and speed of Stereolithography at a lower cost with the ProJet® 6000 and 7000 SLA 3D printer series. These highly productive systems offer all the benefits of SLA in a smaller footprint, so you can print parts for prototyping, rapid tooling and end-use with fine feature detail and exceptional mechanical properties, all at a lower per-part cost than other print technologies.

The ProJet 6000 and 7000 print at a resolution equivalent to 4000 DPI*, with more consistent mechanical properties in all three axes than other print technologies. Both systems are available in three models—SD, HD and MP—and in configurations up to 380 x 380 x 250 mm (15 x 15 x 10 in.).

The ProJet 6000 and 7000 use a wide choice of VisiJet® performance-engineered materials that match or exceed traditional plastic properties, including resistance to high temperature, tensile strength and impact strength. VisiJet SL Clear is also USP Class VI certified, making it ideal for medical product manufacturing, especially in mass custom manufacturing projects such as hearing aids and dental applications.

* Equivalent DPI based on laser spot location resolution of 0.00635 mm in 3DS testing

www.3dsystems.com
The ProJet® 6000 & 7000 offer the highest-quality parts for the toughest production applications

1. VisiJet® SL Flex
- Polypropylene-like look and feel
- White opaque color
- High flexibility and shape retention
- High feature resolution and accuracy
- Ideal for snap-fits assemblies

2. VisiJet® SL Clear
- Polycarbonate-like look and feel
- Crystal-clear appearance
- Stiff and durable
- USP Class VI capable*
- Ideal for “see-thru” applications
- QuickCast™ capable to producing investment casting patterns

3. VisiJet® SL Tough
- PP/ABS-like performance
- Gray opaque color
- High durability and impact strength
- Ideal for form, fit and function testing
- Master patterns for RTV/Silicone molding

4. VisiJet® SL Impact
- PP/ABS-like performance
- White opaque color
- Exceptionally tough and durable
- Ideal for challenging functional assemblies and demanding applications
- Small lot direct manufacturing applications

5. VisiJet® SL Black
- ABS-like look and feel
- Black color
- High strength and good dimensional stability
- Ideal for automotive and consumer goods prototyping
- Ideal for electronics housing

6. VisiJet® SL e-Stone™
- Extreme accuracy and repeatability
- High-contrast peach color, replaces dental stone
- Ideal for crown and bridge restorations
- Working models for partial frameworks
- Orthodontic thermoforming applications

7. VisiJet® SL HiTemp
- High-temperature resistance to 130°C+ (266°F+)
- Translucent
- Humidity and chemically resistant with high rigidity
- Long term stable properties
- Ideal for under-the-hood component testing

8. VisiJet® SL Jewel
- Direct casting of jewelry patterns
- High contrast blue color
- Reduce cost and speed process with stone-in-place casting
- Models requiring high detail
- Excellent resolution and accuracy

* DISCLAIMER: It is the responsibility of each customer to determine that its use of any Class VI certified VisiJet® material is safe, lawful and technically suitable to the customer’s intended applications. Customers should conduct their own testing to ensure that this is the case.
VisiJet® SL Materials for ProJet 6000 & 7000 Printers

The wide range of VisiJet® SL engineered materials offers the toughest and the highest quality parts to meet a variety of commercial and production applications.

**Electrical**

- 100-240 VAC, 50/60 Hz, single-phase, 750 W

**Dimensions (WxDxH)**

- **3D Printer Crated**: 66 x 35 x 79 in (1676 x 889 x 2006 mm)
- **3D Printer Uncrated**: 31 x 29 x 72 in (787 x 737 x 1829 mm)

**Network Compatibility**

- Network ready with 10/100 Ethernet interface 4MB

**3D Manage Software**

- Easy build job set-up, submission and job queue management
- Automatic part placement and build optimization tools
- Part stacking and nesting capability
- Extensive part editing tools
- Automatic support generation
- Job statistics reporting
