Revolutionizing Health Care in Omaha

Clarkson College and 3D Systems Partner to Establish 3D Printing and Training Center of Excellence

ROCK HILL, South Carolina, and OMAHA, Nebraska, September 5, 2023 – A groundbreaking partnership between [3D Systems](http://www.3dsystems.com) of Rock Hill, SC (NYSE:DDD) and [Clarkson College](http://www.clarksoncollege.edu) will establish the 3D Printing and Training Center of Excellence. This cutting-edge facility, situated on the Clarkson College campus in Omaha, Nebraska, represents a significant leap forward in health care innovation, education, and patient care for the region.

Clarkson College, recognized for its dedication and reputation in health care education, and 3D Systems, renowned for its pioneering role in the 3D printing industry, bring decades of expertise to the partnership. This synergy will enable the creation of pathways that make 3D printing and visualization accessible to health care facilities across the region. Through education, consulting, customized patient care, and research, they aim to reshape the landscape of healthcare in the region.

Bringing technology closer to point-of-care and the implementation of 3D Systems' solutions holds several tangible benefits for Omaha and the surrounding communities including accelerated innovation through clinical engagement, the potential for enhanced patient outcomes and the transformation of health care practices. This partnership enables Clarkson College to offer FDA-cleared 3D printed, patient-specific devices on-site and make them accessible to

clinicians and healthcare facilities across the region. Device offerings include diagnostic anatomic models, surgical guides for orthopedic oncology procedures, and radiotherapy accessories.

Dr. Andrea Nebel, president of Clarkson College, expressed her enthusiasm for the partnership, stating, "We are honored to be aligned with an organization like 3D Systems, who shares our commitment to innovation, service, and people. This partnership will undoubtedly amplify the good work done here every day."

"We are thrilled to partner with Clarkson College in providing our unparalleled breadth of additive manufacturing solutions to clinicians and the patients they treat," said Benjamin Johnson, VP of portfolio & regulatory, 3D Systems. "Clarkson College's passion for providing world-class medical education and clinical services is ideal for training the next generation of workforce talent and executing on patient-specific workflows to enhance patient diagnosis and treatment."

This partnership marks a monumental step forward in health care, education, and patient care. The 3D Printing and Training Center of Excellence at Clarkson College, in conjunction with 3D Systems, is poised to lead the way in shaping the future of medical advancements through the transformative power of 3D printing technology.

Forward-Looking Statements

Certain statements made in this release that are not statements of historical or current facts are forward-looking statements within the meaning of the Private Securities Litigation Reform Act of 1995. Forward-looking statements involve known and unknown risks, uncertainties and other factors that may cause the actual results, performance or achievements of the company to be materially different from historical results or from any future results or projections expressed or implied by such forward-looking statements. In many cases, forward-looking statements can be identified by terms such as "believes," "belief," "expects," "may," "will," "estimates," "intends," "anticipates" or "plans" or the negative of these terms or other comparable terminology. Forward-looking statements are based upon management's beliefs, assumptions, and current expectations and may include comments as to the company's beliefs and expectations as to future events and trends affecting its business and are necessarily subject to uncertainties, many of which are outside the control of the company. The factors described under the headings "Forward-

Looking Statements" and "Risk Factors" in the company's periodic filings with the Securities and Exchange Commission, as well as other factors, could cause actual results to differ materially from those reflected or predicted in forward-looking statements. Although management believes that the expectations reflected in the forward-looking statements are reasonable, forward-looking statements are not, and should not be relied upon as a guarantee of future performance or results, nor will they necessarily prove to be accurate indications of the times at which such performance or results will be achieved. The forward-looking statements included are made only as of the date of the statement. 3D Systems undertakes no obligation to update or review any forward-looking statements made by management or on its behalf, whether as a result of future developments, subsequent events or circumstances or otherwise.

About 3D Systems

More than 35 years ago, 3D Systems brought the innovation of 3D printing to the manufacturing industry. Today, as the leading additive manufacturing solutions partner, we bring innovation, performance, and reliability to every interaction - empowering our customers to create products and business models never before possible. Thanks to our unique offering of hardware, software, materials, and services, each application-specific solution is powered by the expertise of our application engineers who collaborate with customers to transform how they deliver their products and services. 3D Systems' solutions address a variety of advanced applications in healthcare and industrial markets such as medical and dental, aerospace & defense, automotive, and durable goods.
