**Addendum A to the Compliance, Corporate Governance and Sustainability Committee
Charter****Qualifications for Nomination to the Board**

The Compliance, Corporate Governance and Sustainability Committee will consider the following factors, at a minimum, in recommending to the Board potential new Board members or the continued service of existing members:

1. Directors should be of the highest ethical character and share the values of 3D Systems Corporation as reflected in its Code of Conduct.
2. Directors should be highly accomplished in their respective fields, with superior credentials and recognition.
3. In selecting Directors, the Board should seek to achieve a mix of Board members that enhances the diversity of background, skills and experience on the Board, including with respect to age, gender, international background, race and specialized experience. When seeking candidates for nomination to the Board, the Board should be presented with a pool of candidates for consideration that shall include at least one woman and one member of an underrepresented group, thereby ensuring that members of the populations underrepresented on the Board are considered for nomination to the Board with appropriate consistency. Further, the Company shall endeavor to achieve and maintain greater diversity on the Board by 2030. To this end, the Company shall annually provide a graphic representation in the Company's proxy statement reflecting the current Board-level diversity, including representation of certain key skills, qualities, attributes, and experiences of each director as well as demographic information based on voluntary self-identification by each individual director.
4. Each Director should have relevant expertise and experience and be able to offer advice and guidance to the chief executive officer based on that expertise and experience.
5. In selecting Directors, the Board should generally seek active and former executives of public companies and of other complex organizations, including government, educational and other not for profit institutions, or persons with specialized expertise in a discipline that is relevant to service as a Director of the Company.
6. The majority of Directors should be independent under applicable listing standards, Board and Committee guidelines and any applicable legislation.
7. Each Director should be "financially literate," and some should be considered "financial experts" as described in applicable listing standards, legislation and Audit Committee or Board guidelines.
8. Each Director should have sound business judgment, be able to work effectively with others, have sufficient time to devoted to the affairs of the Company, and be free from

conflicts of interest. Also, all Directors should be independent of any particular constituency and be able to represent the best interests of all stockholders of the Company.

9. In considering the re-nomination of existing directors, the Compliance, Corporate Governance and Sustainability Committee shall take into consideration: (i) each director's contribution to the Board; (ii) any material change in the director's employment or responsibilities with any other organization; (iii) the director's ability to attend meetings and fully participate in the activities of the Board and the committees of the Board on which the director serves; (iv) whether the director has developed any relationships with the corporation or another organization, or other circumstances have arisen, that might make it inappropriate for the director to continue serving on the Board; and (v) the director's age and length of service on the Board.

10. Each new Director should confirm his or her willingness and ability to serve for a number of years as a Director prior to retirement from the Board, although the Board has not adopted a retirement age for Directors.

11. Each Director is expected to hold during his or her term of office a meaningful number of shares of the Corporation's common stock. Shares for the purposes of determining compliance with this stock ownership policy are defined as Common Stock held outright (by the director or his or her spouse), restricted stock units, restricted stock awards, and shares or share equivalents held in a Company savings plan or deferred compensation plan. Stock options, stock appreciation rights, and performance stock units are excluded from the definition of shares. Additionally, each of our non-employee directors are required to retain all shares of Common Stock that have been awarded to them under the 2015 Incentive Plan until the minimum holding requirement is met; however, they may sell up to 50% of the shares of Common Stock covered by any award to satisfy any tax obligation arising from such grant or grants. In addition, non-employee directors are required to retain all shares of Common Stock that were awarded to them under the 2004 Restricted Stock Plan for Non-Employee Directors (which was depleted in 2019) as long as they remain a director of the Company; however, they may (a) sell up to 50% of an award to cover the tax obligation arising from such grant or grants and (b) make certain transfers of shares received under the 2004 Restricted Stock Plan for Non-Employee Directors to members of their immediate family or to a trust or other form of indirect ownership established by the director for his or her benefit or for the benefit of the members of his or her immediate family.

12. The Compliance, Corporate Governance and Sustainability Committee will also consider any other factors that it deems appropriate related to the ability and willingness of a new member to serve or an existing member to continue his or her service.
